Wanderlust & Travel Tales

Good times, great stories, and unforgettable adventures

While all the lessons learned in the classroom are important, the unique learning that comes from a school trip is truly special. This year, we stepped outside our walls to turn the world

into our teacher, with every journey made powerful and safe through the close supervision of our Management. Our school-wide excursions brought lessons to life and sparked real

curiosity, helping students develop teamwork and real-world manners. They returned with dusty shoes, big smiles, and a sense of independence that cannot be learned from textbooks.

Grade Nursery and LKG: Spring in Our Step: A Heartwarming Adventure to Sky Jumper. (31st October)

Grade UKG to II: The Heritage of Haryana: A Vibrant Cultural Expedition to Chokhi Dhani. (1st November)

Grade III-IV: Living that village life at Mera Gaon Mera Desh! (1st November)

Grade V-VIII: Adventures at Oh!Max: Where everything is legendary! (8 November)

Grade IX to XII: Lansdowne Adventures: Pines, peaks, and plenty of laughs! (13 to 15th December)

A perfect blend of innovation and support, this school truly brings out the best in every student.

From the Desk of Ms. Adarsh Sethi, Director

And the saga continues—yet another chapter written in the golden ink of academic brilliance and extracurricular triumph. My deepest gratitude goes to the mentors and students who ensure our journey of excellence never wavers. There is no better way to honor these accolades than through this newsletter, which illustrates the colorful tapestry of our

shared joy. We do not merely aim for grades; we aim for the enrichment of the soul. Let these pages remind you that every celebration is a milestone on the path to greatness. As you browse through these achievements, remember that you are the authors of this story. Continue to strive, for the horizon of success is wide, and your potential is limitless.

Reflections from the Vice-President Ms. Sampada Sethi

Ten, nine, eight... two, one.

Beep. In just ten seconds, a microwave finishes its cycle—and another small moment of your life passes by. Those seconds may seem insignificant, but they quietly add up, shaping days, years, and ultimately, a lifetime. Awareness of time is only the first step; the real question is how you choose to use it. Every moment holds potential—to learn, to reflect, or to move one step closer to your goals. Whether your path leads toward science, art, or leadership, the choice is always yours. What truly matters is intention. When time is spent with purpose, even the smallest moments contribute to meaningful growth. This is your time. Your journey, Your future. Make each purposeful second count.

A Message from Ms. Poonam Sethi Principal

I consider this newsletter

a bridge of light, connecting our school to the community of parents who entrust us with their children's futures. It is our way of showing that the promises we make are kept in every classroom and on every field. The laurels that adorn our walls are reflections of inner discipline and a culture of hard work. Enjoy this pictorial glimpse of the year that was, and let us prepare our minds for the heights we are destined to reach in the coming session. Education is a partnership of trust, and as we look

forward, we remain committed to nurturing not just brilliant minds, but compassionate hearts that are ready to lead the world with integrity.

Thoughts from Ms. Rachana Mehta, Administrator

As we approach the horizon

of another remarkable year, we pause for a moment of divine reflection. While the nostalgia of past achievements is sweet, our vision remains fixed on the future. This newsletter showcases the essence of giving, celebrating, and outdoing our past selves. Our administrative mission is to provide the soil in which your dreams can take root. Let our motto guide you: to transcend limitations in every realm possible. May the coming session be a testament to your unwavering spirit and collective harmony. As we streamline our efforts toward a brighter tomorrow, remember that

excellence is not an act, but a habit. Together, we shall continue to build a sanctuary of learning and growth.

My school years have built my confidence and prepared me to face my Pre-Boards with clarity.

A Message from Ms. Vandana Rana, Academic Coordinator

A school is far more than a place of textbooks, examinations, and schedules—it is a vibrant space where ideas are born, talents are discovered, and character quietly takes shape. This creative courage flourishes best when anchored in self-responsibility—the understanding that our choices shape our outcomes. By mastering habits like time management and emotional resilience,

students transform challenges into lessons for growth. I earnestly wish that as students continue their journey, may they carry forward their creative spark, nurture responsible habits, and face life with curiosity and courage. And we shall wait intently to hear those stories. "Two roads diverged in a wood, and I— I took the one less travelled by, And that has made all the difference." (from *The Road Not Taken* by Robert Frost)

Q1. Describe the school in one word or one line.

Mr. Sanjay (In charge of Transportation Department)

Our priority is to provide a safe, reliable, and convenient transport service for all students. We aim to ensure pick-up points are as close as possible to students' residences and cover maximum areas efficiently. We maintain timely communication regarding any changes in routes or timings, and

our drivers and conductors work in close coordination to ensure smooth operations. Regular maintenance of buses and camera supervision of journeys help enhance safety. We appreciate the support and cooperation of parents and students in maintaining a secure and well-organized transport system.

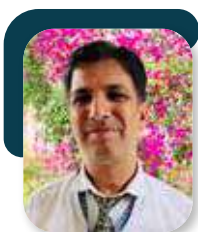

The professional core of our school administration

"Endless paperwork, complex schedules, and a million questions—yet you handle it all with a smile. Thank you for being the backbone of our school."

The administrative staff of PARTH form the backbone of our daily functioning, managing complex logistics with precision and care. Your strong organization and foresight create a smooth, stable environment where teachers can focus on teaching and students can learn without distraction. Your dedication ensures our school remains a place of order, growth, and support for all.

A message from the School Counsellor, Mr. Ankit Sethi

The ancient sages taught us that the best way to predict the future is to master the present moment. Through mindfulness, we prepare the soil of our minds for greatness. Your

manners, empathy, and inner disposition are the wings that will take you to new heights. I am honoured to guide you in this sanctuary of learning, where the heart is as vital as the intellect. In a world of

constant noise, the ability to remain focused and calm is your greatest strength. Let us continue to cultivate kindness and self-awareness, ensuring that our success is measured by the character we keep.

The Sahodaya Inter-School Yoga Competition at Parth
